CERTIFICATIONS

Google, UX Design Certificate **2021 - 2022**
Mimo, Learn to Code (HTML, CSS & JavaScript) **Jan 2020 - Jun 2020**

EXPERIENCE

Product Designer at Kargo, Canada. **Jun 2022 - Present**

- Lead designer for Kargo's Creative Tech and Creative Solutions teams, owning the tools that produce 5,000+ unique ad creatives monthly across social, open web, and CTV.
- Designed AI image generation inside Creative Studio, allowing users to generate images from natural language prompts without leaving their creative workflow.
- Led design for a scheduling feature that automated time-sensitive ad creative updates, reducing manual campaign work during nights, weekends, holidays, and cross-time-zone launches.
- Redesigned Creative Hub, Kargo’s central workspace for managing ad creatives and assets, improving content hierarchy, navigation, metadata visibility, and asset preview experiences.
- Designed Creative Studio’s preview and QA tooling, enabling users to search and filter large product catalogs to validate thousands of dynamic ad designs.
- Redesigned the platform's navigation, reducing task completion time and improving wayfinding for daily users.

- Contributed to and maintained the Design System, ensuring consistency across the platform and reducing design-to-development time.

Lead Product Designer at AfroTada, South Africa. **Aug 2020 - May 2022**

- Developed and implemented a comprehensive UI Kit, reducing design-to-development handoff time and streamlining the overall design workflow.
- Redesigned and launched afrotada.com, driving a sustained 39% lift in user engagement (peaking at 65% in launch week).
- Created an intuitive user interface for the AfroTada writer's dashboard, tripling the number of writers on the platform.
- Conducted in-depth UX research and analysed data to derive actionable insights, resulting in an improvement in user satisfaction.
- Generated detailed UI specifications and collaborated closely with engineers, reducing design implementation errors and accelerating development cycles.
- Spearheaded user experience enhancements across all AfroTada digital platforms.

Website Designer at Ere Oluwa Nig Enterprises, Nigeria. **Feb 2020 - May 2022**

- Designed and shipped the company website interface, replacing the prior static site.
- Built and maintained the site as the primary surface for product and service information, establishing it as a lead-generation channel.
- Implemented a CMS so non-technical staff could keep product information accurate and current.
- Diagnosed and fixed performance issues including broken links and slow page loads, improving overall site reliability.
- Built responsive layouts for mobile and tablet, expanding the site's reach to mobile visitors.
- Ran regular usability testing and used findings to inform iterative design improvements.

Freelance Product Designer, Nigeria. **Aug 2019 - Jan 2020**

- Conducted UX research with target users to surface pain points and inform product direction across client engagements.
- Developed user personas, journeys, and flows as foundational artifacts for client work.
- Produced wireframes, high-fidelity mockups, and interactive prototypes for stakeholder review and sign-off.
- Delivered developer-ready design specs, assets, and documentation for handoff.
